

## BIT 85%

### 1,2 Benzisothiazoline-3-One

CAS No: 2634-33-5

EC List No: 220-120-9

Molecular Formula: C7H5NOS

Parameters	Specifications
Appearance	White or light yellow hydrated powder
Assay	>99%
Melting Point	155 – 158 deg C
Colour of Alkali solution	4 max
Water	15%
Chlorides	0.6 max

#### Applications:

Used as an Industrial Biocide for the preservation against microbial spoilage of Synthetic Latex Polymer, Paints & Coatings, Polymer & Leather Material and Metal Working Fluids.
